SUMMARY

Dedicated Frontend Developer with experience in HTML, CSS, JavaScript, and frameworks like Angular, React. I am passionate about contributing innovative solutions to web development. Strong problem-solving skills and a commitment to producing high-quality code.

TECHNICAL SKILLS

Programming Languages :- JavaScript, ES6+.
Frameworks :- Angular, React.
Development-Tools: GitLab, Node, Figma, Postman,Agile, Jira, Visual Studio Code,UI/UX Design

EXPERIENCE

GRADUATE ENGINEER TRAINEE INTERN (JAN 23 - JULY 23)   **SYNOPSYS INC, MUMBAI**
- Developed dynamic and responsive web applications using **HTML, CSS, JAVASCRIPT, ANGULAR 13, TYPESCRIPT, ANT DESIGN**. Developed dynamic and responsive web applications using Angular framework and integrated **AG-Grid**, to display large datasets efficiently.
- Implemented user interface components using **Ant Design**, ensuring seamless user experience.
- Collaborated with the other teams to design and develop web applications using **FIGMA, GitLab** for version control and for CI/CD pipelines that automate the process of building, testing, and deploying code changes, **JIRA, Postman** and other tools . Worked with **APIs** to fetch data from servers and integrate in web applications. Conducted debugging to ensure the application was free of errors and optimized for performance.
- Worked in **JAVA**, handled **exception** scenarios and implemented **custom exceptions** to ensure robust and error-resistant solutions.

WEB DEVELOPER INTERN (APRIL 21 - MAY 21)   **THE SPARKS FOUNDATION, REMOTE**
- Developed a basic banking system website model using HTML, CSS, SQL.

WEB DEVELOPER INTERN (MAR 21- APR 21)   **SUVEN CONSULTANCY LIMITED, REMOTE**
- Build a 365 Entertainment website similar to Hotstar.com. Design a template similar to blogging platforms like Medium. Animations website and Voter Registration website replica of the National Voter Service Portal Form by using HTML/CSS.

PROJECTS

NEWS APPLICATION USING ANGULAR
- Designed and implemented the front-end user interface using Angular, HTML, CSS ensuring a modern and visually appealing layout.
- Integrated with Restful APIs to fetch news articles, leveraging Angular HttpClient module for efficient data retrieval and manipulation.

CHAT APP USING REACT
- Employed component-based architecture to create a dynamic user interface that facilitates real-time messaging.
- Integrated WebSocket technology to enable real-time messaging, providing instant communication for users without the need to refresh the page.

MEDIUM BLOG CLONE USING REACT
- Medium blog clone using ReactJS. User authentication and backend services like database and storage using Mongodb and NodeJs.
- Involves crud operations like creating, reading, updating, and deleting articles.

TRAINING

QSPIDERS/JSPIDERS - THANE   **Jul 22-DEC 22**
- **JAVA** : Knowledge on **JDK, JRE, JVM, Datatype, OOPS, up-casting** and **down-casting**, knowledge on **Exception Handling**.
- **SQL** : Deep Knowledge of **DDL, DML, and TCL**. SQL Joins(**Inner Joins, Left joins and Right Joins and Full Joins**).

ICT ACADEMY HONEYWELL - AWS CLOUD COMPUTING.   **Jan 22**

EDUCATION

UNIVERSAL COLLEGE OF ENGINEERING   **2018 - 2022**
B.E Computer Science - 8.02 CGPA
VARTAK COLLEGE OF SCIENCE, COMMERCE AND ARTS   **2016 - 2018**
H.S.C - 68.77%
ST ALOYSIUS HIGH SCHOOL   **2016**
S.S.C - 82.40%
